

## Terms and Conditions

### 15% LOSABLE BONUS PROGRAM

#### 1. General Information

1.1 The website(<https://holaprimemarkets>) is owned and operated by HolaPrime Limited is regulated by the Financial Services Commission of the Republic of Mauritius with an Investment Dealer License with license number GB24203729

1.2 The **15% Losable Bonus** is a non-interest credit provided by the Company to its Live account holders under the terms outlined in this document. This bonus is categorized as *losable*, meaning it remains available for trading even if the client depletes their own funds deposited. All profits generated using the losable bonus are fully withdrawable; however, the bonus amount itself cannot be withdrawn.

1.3 By participating in this Losable Bonus Program, the client agrees to abide by all the terms and conditions stated herein.

---

#### 2. Scope and Functioning of the Losable Bonus

2.1 The Losable Bonus is applicable to all live accounts created on the MT4/5 platform, and is granted on only the first deposit of **100 USD or more** (or equivalent in another currency) for all live accounts. Internal transfers between live accounts within the Company are not considered eligible for the bonus.

2.2 The Company offers a **15% Losable Bonus**. For example, a deposit of **5,000 USD** will earn a losable bonus of **750 USD**, making the total available trading equity **5,750 USD**. If losses exceed the client's deposit, the losable bonus will be utilized for trading.

Deposit Amount(USD)	15% Losable Bonus(USD)
100	15
500	75
1,000	150
5,000	750

2.3 Maximum leverage allowed to receive the Losable Bonus is **1:500**.

2.4 The total cumulative Losable Bonus across for a single registration cannot exceed **10,000 USD** (or currency equivalent).

2.5 Each client is eligible to participate in the promotion **only once**. The **15% Losable Bonus** cannot be combined with any other promotional offer provided by Hola Prime Markets.

2.6 Any withdrawal of funds from a trading account holding a Losable Bonus will lead to proportional removal of the awarded bonus, based on the withdrawal amount.

2.7 In case of an internal fund transfer, a proportionate amount of the losable bonus from the source account will be moved to the destination account.

2.8 The Client's net funds are calculated as:

**Deposits – Withdrawals (if any) + Profits – Losses**

Losable Bonus = **15% of the deposit** made under the offer.

If at any time the margin level percentage drops to **50% or below** (i.e., Equity falls to or below 50% of the used margin), the system will start liquidating open positions—starting with the one incurring the largest loss—to reduce margin usage and increase the margin level above 50%.

Note: The MetaTrader platform cannot differentiate between client capital and losable bonus, hence, margin call alerts may not reflect the actual margin status due to the inclusion of the bonus.

---

### 3. General Terms

3.1 The Company reserves the right to refuse the Losable Bonus to any client at its sole discretion. It may also suspend or disqualify a participant found to be misusing or attempting to manipulate the Bonus Program in any manner, as per the terms in this and other relevant Company documents. Affected clients will be duly notified.

3.2 Clients may opt out of the Losable Bonus at any time by requesting its removal. Upon such a request, the bonus will be withdrawn from their account.

3.3 The Company is not liable for any consequences arising from the granting, usage, cancellation, or delay in application of the Losable Bonus, including—though not limited to—losses or auto-closure of positions due to stop-out.

3.4 Clients may request bonus activation or removal by emailing **contactus@holaprimemarkets.com** or reaching out via Live Chat.

3.5 The Company reserves the right to amend, modify, or terminate the Losable Bonus Program or any associated promotions at its sole discretion and without prior notice.

#### **4. Risk Warning**

4.1 Trading spot CFDs in currencies involves significant risk and can lead to substantial financial loss. Trading outcomes may vary, and therefore, only risk capital should be invested. If you do not have surplus funds that you can afford to lose, you should not engage in forex or CFD trading. No trading system can guarantee success or prevent losses.
